

SPECIALTY SERVICES TECHNICIAN

Specialty Services Technicians are in high demand. Lee Building Maintenance provides training in the following areas: Healthcare, Class A, Manufacturing, Life Science, Disinfection, Floor Care, Carpet, and more.

AREA LEADER ASSISTANT

In this full-time role, you will assist the Area Leader with quality assurance, staff management, project completion, and supply deliveries, ensuring operational priorities are met and standards are maintained.

QUALITY ASSURANCE (QA)

As part of the QA team, your focus is on retaining staff and clients.

In addition to a raise in pay, you will learn aspects of property management and use your skills as a Lead Trainer to certify the appearance of buildings.

Promotion is possible in 12-24 months.

CERTIFIED LEAD SOLUTIONS TECH

This entry-level position provides you with the basic skills needed to perform the job and provides you with the necessary foundation to become a trusted leader in our organization. Depending on your experience and performance on the job, most people will be promoted within 6-18 months.

SOLUTIONS TECH

This entry-level position provides you with the basic skills needed to perform the job and with the necessary foundation to become a trusted leader in our organization. Depending on your experience and performance on the job, most people will be promoted within 6-18 months.

10

SUBCONTRACTOR

Lee Building Maintenance is always looking for trusted partners who share our same values in service, delivery, customer service, and employee excellence to collaborate with us as our Subcontractors.

8

AREA LEADER

As an Area Leader, you can do it all: clean, manage people and building budgets, train, perform quality assurance, and more!

You will use all of these skills to manage properties, maintain client partnerships, and reduce employee turnover. In addition, you will learn sales techniques and practical application.

6

LEAD QUALITY ASSURANCE

In the Lead Quality Assurance position, you are responsible for performing quality assurance, creating performance plans, and reeducating struggling Solution Techs, Leads, and Trainers.

This position works directly with the Operations Specialist and Area Leaders to suggest positions requiring restaffing. Promotion is possible in 24 months.

4

LEAD TRAINER

As a Lead Trainer you are one step away from joining the Headquarters team.

At this level, you can lead more than one team and manage more than one building.

Lead Trainers will achieve and maintain a predetermined quality assurance score for a six month period. Promotion is possible in 18-24 months.

2

LEAD SOLUTIONS TECH

The Lead Solutions Tech position is the first step in leadership. You'll receive a pay raise and advanced training on how to lead a team and manage a building on your own.

Once you master budgets and employee retention, as well as maintain a predetermined quality assurance percentage, a promotion is possible within 12-24 months.
